

ANNUAL REPORT

EXTERNALLY FUNDED RESEARCH

BRIGHAM YOUNG UNIVERSITY

1 SEPTEMBER 1984 - 31 AUGUST 1985

Prepared by the Office of Research Administration
C-37 Abraham Smoot Building

Brigham Young University

Office of Research Administration

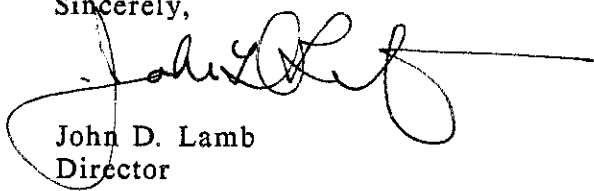

F. LaMond Tullis
Associate Academic Vice President
D-367 ASB
Brigham Young University
Provo, UT 84602

Dear Dr. Tullis:

The Office of Research Administration's Annual Report on Externally Funded Research is herein submitted for the year 1984-85. The report briefly describes some of the recent organizational changes in our office and provides detailed information on externally funded research programs and proposals at BYU.

We continue our commitment to assist BYU faculty in developing strong research programs in all areas.

Sincerely,

John D. Lamb
Director

JDL:ka

TABLE OF CONTENTS.

Summary	1
Office of Research Administration Organization	2-5
External Funds Received	6-20
External Funds Received/Grants & Contracts	7

College of Physical & Mathematical Sciences	18
Religious Instruction	19
School of Management	20

Research Grant/Contract Awards By College & Department	21-31
Source Breakdown - Grants & Contracts	32-34
Grant/Contract Awards By Amount	35-36
Sponsored Research Activity by College & Department	37
Sponsored Research Proposals	38
Summary of Sponsored Research Programs	39-42
Proposals Submitted for External Funds	43
Expenditures of External Funds	44
Research Expenditures by Category	45
Expenditures of External Funds by Department & College	46-48

SUMMARY

This report summarizes the research activity of faculty members, departments, colleges, research centers, and institutes participating in Sponsored Research.

It also reports on services provided by the Office of Research Administration. The mission of this office has traditionally been one of individualized service to relieve researchers at BYU of many administrative burdens associated with the procurement and maintenance of research funding, including all areas of pre- and post- award functions. It is hoped that the quality of these services has been instrumental in the encouragement of research activity at BYU.

New focus has been added to our office with recent changes in personnel. Programs and policies are being implemented to coordinate the university's patenting and licensing of technologies and software. A major goal of the office is to make these activities self-supporting, and to increase the benefits that can accrue to the university by improvements in policy.

During the 1984-85 academic year, 139 separate research awards were made to faculty members and \$8,623,228 were brought into the University to fund research. There were 29 fewer awards made this year than the previous year. Sponsored research funding came from federal, state, and private sources.

In the breakdown of external funds received by college, state support received is included in the private sources (non-federal sources).

There were 176 proposals submitted during the 1984-85 academic year. Of the proposals submitted, 60 were funded, 37 were rejected and 79 are pending.

OFFICE OF RESEARCH ADMINISTRATION

ORGANIZATION

OFFICE OF RESEARCH ADMINISTRATION

I. Organization

The Office of Research Administration was reorganized in May, 1985 upon retirement of the Grants/Contracts Administrator, Garth Frazier. The following description reflects the organization after that date.

The Office of Research Administration serves under the direction of the Office of the Provost and Academic Vice President, Jae R. Ballif, and his Associate Academic Vice President, Neal Lambert (thru June, 1985) and LaMond Tullis (July, 1985 and following). The Office consists of a Director, Associate Director, Technology Transfer Specialist (under contract) and Secretary, with part-time student assistance as needed.

II. Personnel

Director: Dr. John D. Lamb, Associate Professor of Chemistry

Associate Director: Carol R. Hardman

Technology Transfer Specialist: Lee R. Phillips

Secretary: Kaye L. Ashby

III. Responsibilities

A. Director

1. Represents the University's research programs to research organizations, funding agencies, and other universities
2. Develops policies and procedures to foster research and to facilitate technology transfer
3. Administers the university's patents and licensing of technologies and software
4. Coordinates the preparation of large, inter-collegiate and inter-institution research proposals
5. Administers the activities of the Office dealing with the management of grants and contracts

B. Associate Director

1. Manages the Research Administration Office and supervises office staff

2. Assists the Director in determining direction and policy for the Office of Research Administration
3. Assists the Director in presentation of workshops and seminars
4. Monitors office budget and expenditures
5. Coordinates publicity regarding research awards
6. Administers sponsored research contracts and grants and certifies all related expenditure documents
7. Monitors government regulations pertaining to federal contracts and grants
8. Assigns account numbers and records data on funded awards
9. Monitors research budget accounts in conjunction with Financial Services, to assure compliance with agency and university regulations and insure that corrective action is taken to avoid budgetary problems
10. Prepares and submits closeout documentation as grants and contracts terminate
11. Negotiates contracts and grants with funding agencies
12. Assists Financial Services with audits of contracts as required
13. Has responsibility for management of capital equipment on federal accounts and reports on such responsibility to funding agencies
14. Oversees compliance with federal regulations pertaining to the use of human subjects at the University
15. Disseminates information relating to funding trends and opportunities of interest including publication of a monthly newsletter
16. Maintains up-to-date reference files of funding sources, agency telephone numbers and addresses, and interests of BYU researchers
17. Assists researchers with budget preparation for proposals, preparation of representations and certifications as needed and coordination of authorizing signatures on required documents

C. Technology Transfer Specialist

1. Negotiates and prepares legal documents for licensing, contracting, marketing, and the development of technology and research at BYU
2. Assists University faculty/personnel in generating funds from outside sources for the patenting and development of their inventions
3. Secures legal counsel to actually prepare patents and help organize materials and persons so that a minimum of outside legal help is required
4. Organizes and administers the patents and license agreements that are held by BYU
5. Assists the Director and Associate Director in appropriate areas as needed

D. Secretary

1. Serves as the receptionist for the Office of Research Administration with specific responsibilities in handling the telephone and mail
2. Serves as personal secretary to the Director of Research Administration
3. Prepares and processes forms, reports, and correspondence for the Office of Research Administration
4. Maintains a log and file of pending proposals submitted to various agencies by BYU researchers
5. Obtains signatures, reproduce, distribute, and mail research proposals for faculty researchers as requested
6. Prepares and maintain Federal Time & Effort Reports for both faculty and students involved in federally sponsored research
7. Maintains files of research salary payments and associated paperwork for researchers paid from research accounts
8. Obtains signatures from the Associate Academic Vice President for proposals, contracts and agreements and other necessary items
9. Prepares a weekly agenda of contract/grant documents and a monthly activity report of proposals submitted, funded, and rejected for the Associate Academic Vice President
10. Supervises the part-time student clerks

SPONSORED RESEARCH ACTIVITY

BY COLLEGE & DEPARTMENT

SPONSORED RESEARCH PROPOSALS

During the 1984-1985 year, 176 proposals were submitted to various agencies for funding. This was a decrease of 45 over the previous year.

Of the 176 proposals submitted, 60 were funded, 37 were rejected, and 79 are pending.

During part of the reporting year, there were centers and institutes operating independently of the colleges. This data may not accurately reflect the total proposal activity of those centers and institutes. This situation was corrected during the current year, so that all research activity at this time is directly under college administration.
