HORNED-LIZARD

(D)  
FOLD DOWN ALONG  
DOTTED LINES  
AND ATTACH PAPER-  
CLIP TO NOSE OF PLANE

(A)  
FOLD IN HALF  
ALONG DOTTED LINE  
THEN LAY FLAT AGAIN

The Horned-lizard  
Considered the most bizarre of North American  
lizards, not only for its appearance, but some  
species can squirt blood several feet from the  
eyes. Ranging from 2-7 inches in size they are  
camouflaged for sandy or rocky environments.
